

Vargas– 6U

Notes:

- Lockbox with key to portapottie is located on the back fence on Carson Drive next to portapottie. Make sure you return the key once the portapottie is unlocked.
- Do not use the Non- SASC field in the back (gray box). Our two back fields share the back line with this field.
- If there is a problem with the lines, use the key to get paint from the tube.
- Last teams of the day are responsible for locking the portapottie.
